

T5-00103
035325
ELVI_LVI

Code épreuve : 756B

Nombre de pages : 4

Session : 2020

Épreuve de : Langue vivante 1 (LV1)

Consignes

- Remplir soigneusement l'en-tête de chaque feuille avant de commencer à composer
- Rédiger avec un stylo non effaçable bleu ou noir
- Ne rien écrire dans les marges (gauche et droite)
- Numéroté chaque page (cadre en bas à droite)
- Placer les feuilles A3 ouvertes, dans le même sens et dans l'ordre

I. Version

« M. Toby ! M. Toby ! », Juliet accéléra le rythme et le rattrapa alors qu'il allait tourner en direction de Cleveland Street. Elle tira la manche de son manteau, ce qui parut têtù. Une fois, elle l'avait interpellé en faisant de même pour lui rendre un gant qu'il avait fait tomber.

[...]

Il la fixa, en attendant quelque chose de plus.

« M. Toby ? C'est Juliet, vous vous souvenez de moi ? » (Comment ne pourrait-il pas !) Les piétons les contournaient étrangement. Vous sommes tous les deux comme une petite île se dit-elle. « Juliet Armstrong ».

Il réarrangea son chapeau, un chapeau traditionnel gris qu'elle crut avoir reconnu. Il fit un mince sourire et dit :

« Je suis désolé, Madame... Armstrong ? Je crois que vous m'avez confondu avec quelqu'un d'autre. Bonne journée à vous. » Il tourna les talons et commença à s'en aller.

C'était lui, elle savait que c'était lui. La même allure (d'une certaine manière charismatique), le visage calme aux gros yeux, les lunettes rondes, le vieux chapeau. Et enfin, l'irréfutable, et plutôt rassurante, preuve de la canne à la tête d'argent.

Elle dit son vrai nom : « John Hazeldine. » Elle ne l'avait jamais appelé ainsi. Ça sonnait comme une accusation à ses oreilles.

Il marqua un arrêt dans sa marche, dos à elle. Il y avait une fine couche de saleté sur les épaules de son long manteau luisant. Il ressemblait au même qu'il avait porté à travers la guerre. N'a-t-il jamais acheté de nouveaux vêtements ? Elle attendait qu'il se tourne et réfute encore son identité, mais après un instant il se remit simplement à marcher, la canne taffe-tappant sur le pavé gris de Londres. Elle avait été abandonnée. Comme un gant, se dit-elle.

II. Thème —

Mr. Péricourt did not even act like he was working when his daughter's husband knocked at the door. Henri saw, at the other side of the room, his wife's father behind his desk, like God, the father of all.

"Yes...?" he asked flatly.

"Can you have contact with the Pensions minister?" asked Henri with a clear voice.

"Of course, it's a close friend". Mr. Péricourt stayed thoughtful a brief moment.

"He owes me a lot. It's in a certain way a personal debt." [...]

Henri did not expect such an easy victory. His diagnostic got to be verified beyond his expectations. Mr. Péricourt confirmed it unwillingly by taking his eyes down to his desk tool to rest his hand.

"What is it about?"

"A little thing... It's..."

"If it is a little thing, why would you disturb the minister? Or me?" Mr. Péricourt interrupted him while moving his head up.

Henri loved this moment. The opponent would fight but would eventually be forced to let go. With more time, he would have rather make this enjoyable conversation continue, but it was an urgency.

"It's a report that needs to be hurried. It's about my business, it's false and ... »

"If it's false, what do you worry about? »

It was too hard for him, Henri let the temptation to smile take over him. Would the old man try to battle any longer? Did he need to be hit to the head to shut his mouth and act?

III. Expression écrite.

1. According to Andrew Winston, young people understand and see things differently. Therefore, knowing the risks of climate change, they fight today for their future.

The first role that young people play in the climate change movement is by advocating changes. Winston believes that young people can rise a global uproar thanks to the new means of communication that makes the spread of information easier. Moreover, some leading figures, like Greta Thunberg, already take significant measures by stopping to go to school to champion the need to change the current way of thinking of politicians. Past generations have already made some noise by trying to make some change with different causes like the anti-war movement or desegregation.

For Winston, it is true that nowadays the upsurge for climate is going in the good way. However it might be wishful thinking given the lack of actions. The next sticking point for young generations will be, besides the demonstrations, to manage to make some actual change in politics and in the economy. Despite the fact that companies start to change their communication towards pollution free statements it is yet not enough to put an end to this situation. Young people need therefore to influence CEOs and executives

who prefer to make changes for other social ^{issues} before the climate issue. In fact, the majority of Americans allege that companies should go against politicians if they think a cause is important enough.

New generations should therefore endeavour their new roles towards climate change and manage to make some change for their lives.

257 words

2. The recent commitment of Greta Thunberg for a greener planet sparked debate upon whether young people should be trusted to drive societal and political change. To what extent can they be trusted?

First and foremost, young people represent future workers, governors but also future old people. It seems therefore logical to listen to them and their worries towards the future world. In fact, many companies like Malmart, Macdonald but also banks like Barclays have some teams of young advisers that help them to bound for a better, greener and more equal business strategy. However, many young people allege that such a headlong pursuit of productivity can only hasten deforestation, pollution or the greenhouse effect. Some companies like Macdonald only change their logo from a red to a green one and do not make some actual change in their organisation.

That being said, it may not be the best idea to follow everything young people champion. Many protests sometimes grow to an extent where the changes that people claim for are impossible. The recent protests after the death of George Floyd made some young people want some anarchy and it can cause a lot of violence.

All in all, young people can fight for noble aims that could be the portent of a new world. However it remains to be seen whether these aims will ever come to fruition?
